

Bright Side

Lissie

It's just me and my puppy
Together we're so very happy
And the bitter world won't bring us down
No, I'm looking on the bright side of things
It's just me and my honey
Together we're so very funny
And the bitter world won't bring us down
No, I'm looking on the bright side of things
And if nothing new will be taken from my hands now
Within near resistance from me, nothing can last
How can I pass on love and understanding?
Ooh, ohh, ooh, it's just me and my guitar
Together will go so very far
And the bitter world won't bring us down
No, I'm looking on the bright side of things
And then nothing new will be taken from my hands now
Within near resistance from me, nothing can last
How can I pass on love and understanding?
Ooh, ohh, ooh, it's just me and the tramps
Together we will be the champs
And the bitter world won't bring us down
No, I'm looking on the bright side of things
I'm looking on the bright side of things
And I'm looking on the bright side of things
