Lights

Futuristic Robots from the Past

Its a rainy day
Tiny little red guitar
Kinda woulda thought by now
That Id be a superstar

Hold me close
Its kinda crazy cuz of all these ghosts
You must remember that I love her most
Maybe with the lights down low

Its a winters day
(Its a lonely winters day)
And its really cold outside
(And its really cold outside)
Come and warm yourself with me
(Come and warm yourself with me)
Little tiny cozy fire
(Little tiny cozy fire)

Sunshine; blue skies
Waiting on a riptide
To wash it all away
Do you think Im crazy for being
An alien being
Maybe with the lights down low

Soothing music while I lose it
Let me take a step outside
