

Purgatory (Live and Let Die)

Takida

It's all I can say, it's all I can do
Cause you are not alive
You brought fear and stains
It was no place for you
But count was last somehow
It's all you can say, it's all you can do
Preach it right then listen
I'm ending you tonight Can't stand or see a word
Coming out from your mouth
Like the purgatory awaits
And it makes me feel alive
Will you put up another fight?
Just you and me this time
You're hanging on by a thread
I have a problem, live and let die, die The stars disappear, the moonlight is gone
Sunshine, it falls to rain
It's my turn to escape,
When you force into a hole
Reach back, fall down,
My life like I'm ending this tonight Can't stand or see a word
Coming out from your mouth
Like the purgatory awaits
And it makes me feel alive
Will you put up another fight?
Just you and me this time
You're hanging on by a thread
I have a problem, live and let die, die
