Leave (Back Up)

Stereomud

This won't be what you want to hear coming from me
I'm tired of hiding my hate inside from you
I can't take it all right now
I think you shouldJust stay away, get away, run away
So far away that you're never gonna see me
You don't wanna face the reality
That you'll never be nothing more, nothing less to meJust stay away, get away, run away
So far away that you're never gonna see me
You don't wanna face the reality
That you'll never be nothing more, nothing less to meBack up, back off, you're always pushing me
Back up, back off, you're right on top of me
Get out, get out, get out, what do you want from me?
The hate inside of me, you bring it out of meSo beautiful you're confusing me it's hard to let go
How did I make it this far away from you?
I've heard all the lies that won't come true
I wish you wouldJust stay away, get away, run away
So far away that you're never gonna see me
You don't wanna face the reality
That you'll never be nothing more, nothing less to meJust stay away, get away, run away
So far away that you're never gonna see me
You don't wanna face the reality
That you'll never be nothing more, nothing less to meBack up, back off, you're always pushing me
Back up, back off, you're right on top of me
Get out, get out, get out, what do you want from me?
The hate inside of me, you bring it out of meBring it out, bring it out, bring it out
Bring it out, bring it outGo on get out, go on get out
Why are you always pushing me?
What you should do
What you should do is leaveBack up, back off, you're always pushing me
Back up, back off, you're right on top of me
Get out, get out, get out, what do you want from me?
The hate inside of me, you bring it out of meYou bring it out of me
Do you feel like everyone else feels?
