

Strong Black Vine

[Tori Amos](#)

Shut your mouth
I'm spinnin' it tight down south
I'm on raid, Tie you down
'Cause boy, I can save you from that evil faith
Eagles serve, yeah, uh, uh, mother first
They turn you predator but boy, I can save you from that evil faith
Arms sold in Balmy cities that may not be with us for long
Save you from that evil faith
Lay back, strong black vine
Submission is my mission for a strong black vine
You just might see that, sweet Jesus
Strong black vine
Submission is my mission for a strong black vine
Your mission, concentrate
Blown to bits her innocent flesh to dust
All for a dark god
All for the love of some evil faith
Swollen stream
Every drip serpents bless
You rape earth knowledge
Still she would save you from your evil faith
Bodies bathe is black gold, your pleasure
Arms sold in Balmy cities that may not be with us for long
Save you from that evil faith
