

# Midwestern States

## The Menzingers

I hope this isn't a burden,

Thanks for having us over

We could sleep on the couch, we could sleep on the floor

We will leave before you even notice we were here

Or even notice us at all

Been having problems with our landlord,

He said he's taking us both to court

She got her hours slashed and my unemployments drying up fast

We both got worthless diplomas from worthless universities

Two bachelors in worthless studies but at least it made our parents happy

And cost a whole lot of money.

You said L.A. is only two days if we drive straight

Denver if we get tired

Said you didn't mind stopping just as long as we got out of the Midwest States

The Midwestern States

But I know somewhere in Chicago where we can stay for a little

I hope this isn't a burden,

Thanks for having us over.

Most nights we always fall asleep with

something dumb on Netflix

Some nights trash reality, kids cartoons, or shitty documentaries

Not perfect but we're good together,

me you and our bad tattoos

All our stick and pokes, all our inside jokes,

we'll regret 'em when we're dead and sober

But we're still breathing and the party ain't over. You said L.A. is only two days if we drive straight

Denver if we get tired

Said you didn't mind stopping just as long as we got out of the Midwest States

Denver if we get tired

Said you didn't mind stopping just as long as we got out of the Midwest States

The Midwestern States
