

Every Other Way (Jim Jacobsen Remix)

BT

[Verse 1:]

Is it strained, when I call you
Or do you think, that I might forget
 Oh your love, is radiating
 The farther away
 I go
 I go[Verse 2:]
 Do you count, on me now
 And do you wait, up for me all night
 I wish I could run, to you when you need me
 You know I can't be far
 For long
 For long[Chorus :]
 Heart don't fail me now
 Cause there is no time to waste
 Don't shut me out, we shouldn't wait another day
 I've searched for you, on my hearts high speed chase
 Hear me out, may be the only chance to say
 Hold me now
 I've said it Every Other Way[Bridge :]
 These tears I've cried
 More moments gone to waste
 I've searched for you
 I've said it Every Other Way
