

Cat Claw

The Kills

Its time to stand on dull fingers
And the band
Tell me sugar how you felt now
C'mon sugar, tell now
Stand your face until it's soot
On fire
Won't keep up with the law
Such a long walk
If this all goes well you won't have nothing
So tell you dead wrong
Dead wrong
And now you're long gone
Hang out for minute and re-think.
Question,
Tell me what she done
Just one 'cause I can't see nothin'

So, one , two and
You got it I want it
You got it I want it
You got it I want it
You got it I want it
You got it I want it
You got it I want it
Got my hand caught in a cat claw
Scream
Everyone's that time
Looks around
They're talkin' trees you know.
Never know who's comin' might easy be me
Give up for my love 'cause that's too much
Fuck.

So, one, two and
You got it I want it
You got it I want it
You got it I want it
You got it I want it
You got it I want it

You got it I want it

Oh, oh, oh,

Oh, oh, oh

Its time to stand on dull fingers

And the band

Tell me sugar how you felt now

C'mon sugar, tell now

Stand your face until it's soot

On fire

Won't keep up with the law

Such a long walk

So, one, two and

You got it I want it

You got it I want it

You got it I want it

You got it I want it

You got it I want it

You got it I want it
