

# We Can't Be Friends

## Seabird

this is the start of the end  
this is a start of a mess  
I don't think we should pretend  
that this is anything less than over

let me make it crystal clear

we can't be friends  
we can't be friends  
you did what you did  
and I said what I said

already told you  
don't wanna know you anymore  
so get it through your head  
we can't be friends

stop trying so hard  
were so much better apart  
you can't just rip out my heart  
and then just keep going on like we're not over

let me make it crystal clear

we can't be friends  
we can't be friends  
you did what you did  
and I said what I said

already told you  
don't want to know you anymore  
so get it through your head  
we can't be friends

I wish I could erase my memories  
said i never had it in me  
swear ill find a way to move along

you may as well erase my number  
i already burned your letters

find enough of you when you are gone

we can't be friends  
we can't be friends  
you did what you did  
and I said what I said

already told you I don't want to know you anymore  
so get it through your head

we can't be friends  
we can't be friends  
you did what you did  
and I said what I said

already told you don't want to know you anymore  
so get it through your head  
we can't be friends
