Motorcycle

Ana Egge

the world is small, small enough, small enough for us
let's take a ride on my motorcycle tonight

let's take a ride a baby, a ride
let's take a ride tonight

at high speed everything changes your mind
oh maybe you're right, i should take some time to decide

let's take a ride a baby, a ride
let's take a ride tonight
let's take a ride a baby, a ride
let's take a ride tonight

it sounds like escape, the sound that it makes
a hush in my ear, as i fly outta here

i wanna share what it feels like all alone out there
yeah under my feet, through my hair, any time, anywhere

let's take a ride a baby, a ride
let's take a ride tonight
let's take a ride a baby, a ride
let's take a ride tonight

it sounds like escape, the sound that it makes
a hush in my ear, as i fly outta here
