

Time

Mr Hudson

Time is all I fear, it's why I just keep running
The quest for love was all that you and I held dear
With the beat still in your head and a good book by your bed
We will surviveSomeday are we gonna wake up a little bit older?
Are we out of time, time, time?
I know that should we ever break up we'll find a way to make up
In the fullness of time, time, timeTell me where do you wanna be
When all your friends have settled down
In the suburbs on the greener side of town?Time is all I fear, it's why I just keep running
The quest for love was all that you and I held dear
With the beat still in your head and the good book by your bedAnd as your old man said good friends
Well, you can count them on one hand
And they'll never judge you whatever your crime, crime, crime
I know that I can include you and you'll forgive me
In the fullness of time, time, timeTell me where do you wanna be
When all your friends have settled down
In the suburbs on the greener side of town?Time is all I fear, it's why I just keep running
The quest for love was all that you and I held dear
With the beat still in your head and the good book by your bed
We will survive, you and ITime is all I fear, it's why I just keep running
The quest for love was all that you and I held dear
With the beat still in your head and the good book by your bed
We will survive, you and I
