I Want You

Maxx

I've been waiting such a long long time
For someone special just like you
I've been waiting such a long long time
I've been looking for some signI want you
I want you more & more
I want you
I want you more than allDo you want it? Do you want it? Do you want it?
Right now!Open up your body & get ready to except
Cause what you see is what you gonna get
There will never be another, you're exactly what I need
You're my first class ticket and i want it to speed
I'm looking like a lover and you call him insane
All i wanna do is ignite your brain
So baby won't you tell me, won't you tell me what to do
Come on you know i want it and you know you want it tooI'm not just anybody but i'll take you for a swim
So what I say is always what I mean
I never run for cover I'm a man who keeps his word
You're my very first choice, I don't care what you've heard
I'm giving and I'm looking cause I know you want it all
All I wanna do is sing in your ball
So Baby let me tell ya, Baby I want you
Come on you know I want it and you know you want it tooDo you want it? Do you want it? Do you want it?
Right now!This is a story are you ready to receive
Cause what I say, I'm gonna make you believe
