

Image of Man

Wipers

Watch it from the dark side
Come into the right side
This tired need surrounds me
This image of man
Step into the spot light
Watch you in the spot light
A magnitude of color
This image of man
What it from the dark side
Step into the right side
A magnitude of color
This image of man
Step into the spot light
Tell me it's the right light
The magnitude of color
This image of man
Color image of man
Color image of man
Color image of man
