

Shangri La

Lola Blanc

I know of a place with a pretty face
Where the river's flowing through my mind
On a mountain high and I could touch the sky
When I'm thinking of you I just can't believe that you are mine
I just wanna hold you for all time
Every time I look into your eyes
Baby, I'm in paradise Everybody knows you're my
Special little something, yes you are
You're my shangri-la Everybody knows that you're the
Only one I'm wanting, yes you are
You're my shangri-la, yeah I've been all around, finally I've found
On a field of dreams an Angel
By the ocean blue with a perfect view
When I'm looking at you I just can't believe that you are mine
And I just wanna hold you for all time
Every time I look into your eyes
Baby, I'm in paradise Everybody knows you're my
Special little something, yes you are
You're my shangri-la Everybody knows that you're the
Only one I'm wanting, yes you are
You're my shangri-la S to the H to the A to the N to the G
To R to the I to the L to the A
Shangri-la
S to the H to the A to the N
To the G to R to the I to the L to the A
Shangri-la
You're my shangri-la Everybody knows you're my
Special little something, yes you are
You're my shangri-la Everybody knows that you're the
Only one I'm wanting, yes you are
You're my shangri-la Everybody knows you're my
Special little something, yes you are
You're my shangri-la Everybody knows that you're the
Only one I'm wanting, yes you are
You're my shangri-la You're my shangri-la
