

Morning After

Tyrese

Hey, baby wake up
What happened last night, damnStarted off with a bottle of Patrñ
And it ended up with breakfast in bed
Just enough to turn your freaky on
And I'm trippin' off the things you saidIt's been messin' with my sleep
Got me up at the crack of dawn
Lookin' 'round my room, smellin' your perfume
Reaching for your hair but you're goneYour sex got me so hot, I can't come down
Even if I wanted to
Your neck, your back, I'm workin' my way down
It's what you make me doI think I want another morning after
It plays over in my head every time I make my bed
I'm looking forward to the morning after
It's get me through with the day when I think about the wayYou get that dirty little look on your face
And tell me that you're ready for the trip that we 'bout to take
Oh, baby girl
I just gotta ask ya, can I get another morning after?Reminiscing how it all went down
Wish I could play it like a DVD
Got so wet a nigga almost drowned
But then you came and rescued meYour sex got me so hot, I can't come down
Even if I wanted to
Your neck, your back, I'm workin' my way down
It's what you make me doI think I want another morning after
Ohh, it plays over in my head every time I make my bed
I'm looking forward to the morning after
Oh, it's get me through with the day when I think about the wayYou get that dirty little look on your face
And tell me that you're ready for the trip that we 'bout to take
Oh, baby girl
Let me ask you this, girl, can I get another morning
Another morning after?Baby can you spend the night with me?
I'm wakin' up before you do to watch you sleep
I'mma watch you sleep baby, yeah, yeahBaby can you spend the night with me?
Can you spend the night with me my baby?
I'm wakin' up before you do to watch you sleep
I wanna make sweet love to youI think I want another morning after
I'm looking forward to the morning afterYou get that dirty little look on your face
And tell me that you're ready for the trip that we 'bout to take
Oh, baby girl
Can I get another morning, another morning after?Baby can you spend the night with me?

Can I get another morning, morning after?
I'm wakin' up before you do to watch you sleep
Can I get another morning, morning after? Baby can you spend the night with me?
Can I get another morning, morning after?
I'm wakin' up before you do to watch you sleep
Can I get another morning, morning after?
