

# The Girl I Left Behind

Charlotte Martin

The girl I left behind me was bad at being good  
The happiest arsonist that ever was  
The happiest communist that ever was The girl I left behind me-you said she wouldn't do  
I know who I want to be-be worthy of you  
So why do I change myself to be worthy of you She's a needer  
A bleeder  
And likes to be on top  
She's a girlfriend  
A whirlwind  
And not so logical  
But she's an ocean in motion  
And magical but you won't let her shine The girl I left behind me  
We've spoken once or twice  
She says I have twice her strength well isn't that nice  
She says I can call her anywhere or any time She's a needer  
A bleeder  
I know that says a lot and  
She's a girlfriend  
A whirlwind  
And not so logical  
But she's an ocean in motion  
And magical but you won't let her shine You watch me as I fall apart for you  
Watch me as I fall apart for you  
Watch me as I waste myself and I waste myself and I waste myself The girl I left behind me  
Was bad at being good  
The happiest arsonist that ever was
