Sound Of Love

Cassie

Okay, you have me sprung from day 1
Right off the jump baby
Your voice is like the sweetest melody, yeah, yeah, yeah
Ok like a number 1 my favorite song you off the charts baby
Together we're like perfect harmony, yeah, yeah, yeah
I could lay up all day, would you let the music play
Love the way it feels here in your arms, yeah
We can go out at night, kiss under the city lights
Just, just, just don't stop what you doing, doing, doing
Boy you make my heart pam pam pam param pam pam
Pounding on my chest bip bip bip just like a drum
Music to my ears, ram pam pam param pam pam
Tonight we gonna turn this up
Cause it's the sound of love, love, love, love
The sound of love, love, love
Cause it's the sound of love, love, love
The sound of love
Baby you and me have been equal to a symphony
Boy you keep me dancing on my feet, yeah, yeah, yeah
Baby you're my star, a work of art, a master piece
Boy let's keep this going on repeat, yeah, yeah, yeah
I could lay up all day, would you let the music play

Love the way it feels here in your arms, yeah
We can go out at night, kiss under the city lights
Just, just, just don't stop what you doing, doing, doing
Boy you make my heart pam pam pam param pam pam
Pounding on my chest bip bip bip just like a drum
Music to my ears, ram pam pam param pam pam
Tonight we gonna turn the sound
Cause it's the sound of love, love, love, love
The sound of love, love, love
Cause it's the sound of love, love, love
The sound of love
L is for the life you breathe in me
O I can't believe this feeling
V is for the vacancy you fill in me
Tonight we gonna turn it up
Cause this is the sound of love

Pam pam pam param pam pam
Pounding on my chest bip bip bip just like a drum
Music to my ears, ram pam pam param pam pam
Tonight we gonna turn the sound
Cause it's the sound of love, love, love, love
The sound of love, love, love
Cause it's the sound of love, love, love
The sound of love
