Rainbow

Meja

Can somebody tell me
How clouds can make you
Forget a blue sky
Thought I'd hide in the rain
But you saw me cry
I used to be lonely
And love was something
Just others had found
I thought no one could know me
'Til you came around
The sun has so much power
Splits right through the rain
I feel just like a flower
Totally insane, what do you say?
Do you believe, we can reach right on up to the rainbow?
Do you believe in the colors you see when I smile?
Before I met you, so much in my life here was painful
But now I can see that my rainbow will stay for a while
Baby, life is so precious
And time spins by so terribly fast
We gotta live each day
Like it could be the last
The sun has so much power
Splits right through the rain
I feel just like a flower
Totally insane, what do you say?
Do you believe we can reach right on up to the rainbow?
Do you believe in the colors you see when I smile?
Before I met you, so much in my life here was painful
But now I can see that my rainbow will stay for a while
Put your arms around me, don't let go
Sleeping, breathing, lover, river flow
