

21St Century Riot

Bombshell Rocks

The pressure keeps rising
Turns to a ticking bomb
The hands keep turning
It's ready to blow
You're gonna feel the detonationThe temperature is falling
Is it gonna stop?
A cold wind's blowing
You wanna get out
Out of this situationThe blasting wave is coming
Hate is growing strong
There's a 21st century riot going onA cold blue light
Lightens up the night
We're gonna see this place
We're gonna see this city
Turn to an explosionFire smoke's in the air
The flames reach for the sky
Glass is gonna break
This place is gonna shake
Like a ship on a stormy oceanThe blasting wave is coming
Hate is growing strong
There's a 21st century riot going onThe blasting wave is coming
Hate is growing strong
There's a 21st century riot going onThe pressure keeps rising
Turns to a ticking bomb
The hands keep turning
It's ready to blow
You're gonna feel the detonationThe temperature is falling
Is it gonna stop?
A cold wind's blowing
You wanna get out
Out of this situationThe blasting wave is coming
Hate is growing strong
There's a 21st century riot going onYeah, the blasting wave is coming
Hate is growing strong
There's a 21st century riot going on
Going on, going on, going on
