The Love I Know

PFR

He painted 'I love you' on the bridge
Then watched them burn
She bet all she had upon the love
Now she's holding her cards And lost her turnTwo hearts in search of wholeness
Both willing to risk it all
Could true love have fled so easily
Leaving both broken from the fallNot the love I know
It knows no boundaries keeps no record of wrongs
That's the love I know
It takes the good with the bad and it fights to stay strong
That's the love I know
This love always finds a way to carry on
That's the love I knowHe sits all alone and stares into an empty sky
She goes through all her mixed emotions trying to find a reason why
Was their pride to big to swallow was their hurt to deep to heal
Could they find some understanding
Find forgiveness that's realThat's the love I know
It speaks in kindness it seeks only what true
That's the love I know
A love without condition it looks to renew
That's the love I know
It knows that when hope seems gone hope will come through
That's the love I knowThe love I know comes from a Holy God to man
Isn't it time that you received it
Are you starting to understand
The love I knowNot the love I know
It knows no boundaries keeps no record of wrongs
That's the love I know
It takes the good with the bad and it fights to stay strong
That's the love I know
This love always finds a way to carry on
That's the love I knowThat's the love I know
