

# From the Used Bin

## Diesel Boy

I once snorted cocaine / Off of Gwen Stefani's ass / I used to ride around in limousines / And flash my  
backstage pass / I hung out at the Viper Room / With Manson and Dave Grohl / I took X with Billy Corgan /  
Partied down with Courtney's Hole / Did yoga with Madonna, smoked blunts with ODB / I rescued some  
Tibetans with the Boys Beastie / Is this thing on? / Hey hey check check / I once opened up for Beck / And  
everyone from sea to shining sea / Knew my face when I got on MTV / I used to pose for paparazzo / With  
Alanis on my arm /

I seduced this gorgeous model chick / With my fame and not my charm / I headlined last years Lilith Fair / Just  
me and my brassiere / Sang songs for sweaty college girls / Spin's artist of the year / I even wrote a song with  
that guy from the Fugees / Got dooper rhymes than Master P / I went cruising with Dr. Dre / He tried to kiss me-  
thought I was gay / And everyone from Detroit to Yellowstone / Knew my face from the cover of Rolling Stone  
/ I never thought it would end like this / People act like I don't exist / I went from A-list to blacklist / Just  
another casualty / Another answer on Jeopardy!
