

Bring Them All / Holy Grime (feat. Devlin)

Wiley

ListenDrink 'nough beers before the game, what d'ya call that? Georgie Best MC

Listen, I don't rest MC

You man sleep, that's why you're not the best MC

You man are part time, never had beef

Now you're on the mic like a bulletproof vest MC

I'm a double, precious Tek MC

Separate heads from necks

I was in the shadows, I came to the light with a path

Us spitters who wanna be first and never be last

I've been ahead of the game, I've been ahead of the craft

I wanna laugh

Come sailing along like a bus

With the flow I'm like rah, what the ras?

I'm a striker, y'all better pass, get my triple A passes

I'm sitting with the stars

Listen up, I ain't normal, I'm sicker than my bars

Driven myself crazy, I've been in every condo

I like to fly by on my black Yamaha, that's winging

Some man do the crime and talk but that's singing

Not many man have been in the wars that I've been in

I can work here but it's not a place that I could live in

Getting new money though but I've already made a killing

I've already made a scene, I already live a dream

And the king's road's lonely, you can't go with him

When it's time for a test

Man ah man have gotta move swiftly 'cause you don't want a knife in your chest

In the hood every day, it's heroin, living like they're dead

Made it, now you're lying in your bed

It's like yo, has anybody seen my flow right here, cuz?

Live in your ears like earplugs

Keep myself away like rare dubs

What makes you so scared, I'm sure fear does

On the real though, I stand up and face it

The levels high in my scene, that's why I embrace it

Let me go on and enjoy what I created

Man will jump on the stage and go ape shit

For years I've been killing it, trust me

Swear down, I will never get rusty

My lyrics dem will rough up your lyrics like rugby

For the work I put in, the fans love me
This one ain't free but it's the liberty

Street divinity

Me and Will's tyranny

And this one's willing me to rise like Pyrenees peaks and I'm lyrically

In the sky and then I'm right through infinity

Forever after, Devs be the master

Hit 'em with the Carleone thing[?] Godfather of grime

Don't charter to ride through parts of

This precinct when it gets darker

Don't think you can stand the heat

You can't stand this peak

I'm like a million and one lightyears way past of an artist's reach

Mary, I'm hard to beat

Now think deep

About this collabo

Historical events unravel

Like I went Middlesex, I came to Harrow

My man said he feel paro

Bloody cuffs, heart on my sleeve

This shit feels like beef to me

When I spit and my arms start swiniging, I'm bringing

More raw shit than a Beckton works

Smell it and know why Kano writ it

Wrote it, fuck me, alright, don't quote it

Focus, look, now I'm back and it's hopeless

Comparing me with these seeds

Too rare a breed of MC and the flow shifts

More than once a minute

Getting off like dharma, I come and I kill it

A Dagenham'er strapped with a bunch of lyrics

That bang harder, where the fuck's the gimmicks?

There ain't nada

I've got the heart and spirit they can't harbor

Silly men pass the limit and then scarper

When it comes on top with the urban legend, I get 'em like Carter
Spitters can't better these levels of terror

I leave my brain in my car but my head is together

I make a team of dons quit when I'm put under pressure

Rate Devlin, why? He's a grime treasure

In grime, I've lined my catalogue up, prime seller

I'm never too far from the hype that I set up

I step up like a bredda who's livin' in nice weather

At work, puttin' words together with ice letters

I spray, make a big tree lean in the road

Trees drop on your house to leave them a cold

Trees drop on your car, the windows smash

Eski brought O2 Indigo back
But this whole time, fam, I've been holy in grime
Even a first time who don't know me in grime
But you love my stage vibe when I'm holding a mic
I'm a pro now, bro, I jump over the spike
