

From The Get Go

[Tess Henley](#)

You say honey,
Sweet baby,
You got it down like a bad girl hittin' the floor. You say honey,
Lovely lady,
Oh you make it sound like you done this here before. Well I gotta gotta admit, I was a little bit curious.
My premonition proved that what you do is serious and, (Chorus)
I knew it from the get go,
I knew it from the get go,
Even though you was on the low,
I wouldn't've called you an angel, no,
I knew it from the get go. Well you keep jasmine
In your Lincoln,
Now that alone is enough to sniff you out. You dont bother asking,
What Im thinking, no
Now that alone is enough to talk about. Well I gotta gotta admit, I was a little bit curious.
My premonition proved that what you do is serious and, (Repeat Chorus) (Bridge)
You slipped up, got caught,
You told lies, we fought,
But its not your fault
Cause I peppered my own salt. You slipped up, got caught,
You told lies, we fought,
But its not your fault
Cause I peppered my own salt. (Repeat Chorus)
