

# The Chemicals Between Us

## Bush

I want you to remember  
A love so full it could send us all ways  
I want you to surrender  
All my feelings rose today  
And I want you to remain  
The power of children can amaze  
I'll try not to complain  
I know that's a pisser baby

The chemicals between us  
The walls that lie between us  
Lying in this bed  
The chemicals displaced  
There is no lonlier place  
Than lying in this bed

I want you to remember  
Everything you said  
Every driven word  
Like a hammer, hell, to my head

The chemicals between us  
There is no lonlier place  
Then lying in this bed  
The chemicals displaced  
There is no lonlier place  
Than lying in this bed

The chemicals between us  
The chemicals between us  
Lying in this bed

We're of the hollow men  
We are the naked ones  
We never meant you harm  
Never meant you wrong  
I'd like to thank  
All of my lovers, lovers, lovers

The chemicals between us

The army of achievers  
Lying in this bed  
The chemicals displaced  
There is no lonlier face  
Than lying in this bed

The chemicals between us  
The chemicals between us  
The chemicals

The chemicals between us
