Back In The Loop

E-Type

Time has come to get the troops back together
No one's cruising for a bruising
It's a landslide, can't dieTime to get what's coming to me
Time to let things go
There is no way to stop the yellow danger
Time has come for you'Cause I'm back
'Cause I'm back
I'm back
'Cause I'm backSnap out of it now
We're back in the loop and it's time to move on
We're aiming for all or nothing now
We're back in the loop and it's time to go on
For us it is all or nothing nowWho are you, friend or foe?
Now leave your sorrows all behind
This ain't enough, hanging tough
Now you must make up your mindWe can't stay down, we have to leave
There is no place for us to hide, so this is it
You've been warned now
Either join or step aside'Cause I'm back
'Cause I'm backSnap out of it now
Back in the loop and it's time to move on
We're aiming for all or nothing now
We're back in the loop and it's time to go on
For us it is all or nothing nowBack with a vengeance
'Cause I'm back
Back with a vengeance
I'm backBack with a vengeance
'Cause I'm back
Back with a vengeance
I'm backSnap out of it now
We're back in the loop and it's time to move on
We're aiming for all or nothing now
We're back in the loop and it's time to go on
For us it is all or nothing nowTime has come to get the troops back together
No one's cruising for a bruising
It's a landslide, can't dieTime to get what's coming to me
Time to let things go
There is no way to stop the yellow danger
Time has come for you 'cause I'm backBack in the loop and it's time to move on

We're aiming for all or nothing now
We're back in the loop and it's time to go on
For us it is all or nothing nowWe're back in the loop and it's time to move on
For us it is all or nothing now
We're back in the loop and it's time to go on
For us it is all or nothing now
For us it is all or nothing now
For us it is all or nothing now
