

# Rejected By Science

## Daiquiri

Cut, why won't you cut me?  
Don't I even deserve an autopsy?  
I donated my body  
Science rejected itJust keep it, your body is no good here  
Just keep it, we don't want itI always dreamed of having myself dissected  
Donated my body but it was rejected  
Medical students, no nurses inspected  
It was not good enough, it was rejected  
It's my final offer and it got shot down  
Dead or alive no one wants me around
