

# Scorn

## The Genie

They're killing me  
Broken my face, cut me to the bone  
Trapped in this hate, you imprison me  
Gave up my faith, so just leave me alone  
Strapped to the pain, no forgiving me  
So fuckin' scorn that you wouldn't believe  
I fill the tub with gasoline  
Nobody taught me to hate  
Nobody taught me to feel  
You only showed me your pain  
But you, you never taught me to heal  
Tear at the scab, infect the wound  
Take another stab at the enemy  
Light up the blame, fire up the spoon  
Blowin' out me brain 'cause you're killing me  
So fuckin' scorn that you wouldn't believe  
I fill the tube with gasoline  
Nobody taught me to hate  
Nobody taught me to feel  
You only showed me your pain  
But you, you never taught me to heel  
Nobody body taught me to  
(Hate, hate, hate, hate, hate, hate)  
Nobody body taught me to  
  
(Hate, hate, hate, hate, hate, hate)  
As I stand and I wait and I learn  
I have been scorn  
As I live and I die and I burn  
I have been scorn  
Broken my face, cut me to the bone  
Trapped in this hate, you imprison me  
Gave up my faith, so just leave me alone  
Strapped to the pain, no forgiving me  
So fuckin' scorn that you wouldn't believe  
I fill the tube with gasoline  
Nobody taught me to hate  
Nobody taught me to feel  
You only showed me your pain

But you, you never taught me to heel  
Nobody taught me to hate  
Nobody taught me to feel  
You only showed me your pain  
But you, you never taught me to heel  
Nobody body taught me to  
(Hate, hate, hate, hate, hate, hate)  
Nobody body taught me to  
(Hate, hate, hate, hate, hate, hate)
