

# I Ain't Scared Of Lightning

**Tom McRae**

I ain't scared of lightning  
Come on and do your worst  
If they gave degrees  
For cheating destiny Then man  
I got a first No, I ain't scared of lightning  
It's the same old empty threat  
I've been standing proud  
Beneath the gathering cloud And man  
I ain't dead yet No I ain't scared of lightning  
And thunder never killed  
I was born in a summer storm  
I live there still Yeah, I was born in a summer storm  
I live there still
