The Whip

Token Entry

The Whip

Just when I thought it was safe to feel good
something went wrong as I knew it would
work so hard to do something great
then its torn apart by the people who hate
what's the point of trying to go on
what's the motivation behind this song
what's the point of trying to go on
what's the motivation behind this song

I spend my days in a vacuum trying to scream
people stare at me they can't conceive what I mean
what's to keep me from losing my grip
how come I keep feeling the kiss of the whip 2x

I have to question the strength of truth and honesty
when before me allthe liars win so easily
still when my mettle is put to the teast I'll have to hang on and always do my best
it's the honest few who help me keep my grip
and with them I'll withstand the kiss of the whip
it's the honest few who help me keep my grip
and with them I'll withstand the kiss of the whip
