

Sex In the Way

All

I'd like to see you every night and day
With sex in the way, I can't see a thing
And dream about you every night and day
With sex in the way, I can't see a thing
My mind's between your legs
My soul is lying in your bed
Now I'm not really sure
Thing's so evil, feel so pure
I'd like to see if I deserve your love
With sex in the way, I can't see a thing
Why must we kiss each time we say goodbye?
Why must we always say the three word lover's lie?
(Why?) I'd like to see if you are as you seem
With sex in the way, I can't see a thing (Sex in the way)
I can't see a thing
(Sex in the way)
I can't see a thing (Sex in the way)
I can't see a thing
(Sex in the way)
Well, I can't see a thing
My mind between your legs
My soul is lying in your bed
Now I'm not really sure
Thing's so evil, feel so pure
I'd like to see if I deserve your love
With sex in the way, I can't see a thing
I'd like to see if you are as you seem
With sex in the way, I can't see a thing
Why must we kiss each time we say goodbye?
Why must we always say the three words lover's lie?
I'd like to see you every night and day
With sex in the way, I can't see a thing
And dream about you every night and day
With sex in the way, I can't see a thing (With sex in the way)
Sex in the way
(I can't see a)
I can't see a thing (Sex in the way)
With sex in the way
I can't see a thing
