

Mouth to Mouth

Kill Hannah

Love in the lights of an ambulance
So blue and cold, my pulse is slow
But your kiss will burn
White fire screaming loud I need you mouth to mouth
Come here, I need you mouth to mouth
Will you save my life in time?
Get over here, I need you mouth to mouth Love like the last burned cigarette
I want you on the tip of my tongue
Is our fate just some God's sick game? Come to the rescue, mouth to mouth
Come here, I need you mouth to mouth
Will you save my life in time?
Get over here, I need you mouth to mouth
Mouth to mouth Baby, don't take too long
'Cause I feel just like letting go
Save me, save me, save me, save me Get over here
Mouth to mouth, mouth to mouth
Get over here
