

We Meet, We Part, We Remember

The Holmes Brothers

Don't know how, don't know when
Got to get our love, back together again
I was so blind, could not see
Should have been you, should have been me

We meet, we part, sometimes baby
We remember, remember, remember, remember
We meet and we part
Hey, hey, hey, baby, it's breakin' my heart

I wake up at night, you were on my mind
Hoping and wishing, I could turn back the hands of time
I took too long to find my way
Now I'm regretting it, baby, each and every day

We meet, we part, sometimes baby
We remember, remember, remember, remember
We meet and we part
Hey, baby, it's breakin' my heart

You're the one that got away
Still remembered baby, how do you tried to make me stay
You tried so hard to make me see
That this love of ours, baby, is meant to be

We meet, we part, hey baby
We remember, remember, remember, remember
We meet and we part
Hey baby, it's breakin' my heart

Tossin' and turnin', with no one around
Thinkin' about you, baby, the new love you found
Little did I know, since you've not been around
That I was losin' baby, jewel in my crown

We meet, we part, sometimes baby
We remember, remember, remember, remember
We meet and we part
Hey, hey, hey, hey, hey baby

We remember, remember, remember, remember
We meet and we part
Hey baby, hey, hey, hey baby
We remember, remember, remember, remember

Meet and we part, hey, hey, hey, hey, hey, hey
We remember, remember, remember, remember
Meet and we part
Hey, hey, hey, hey, hey baby

We remember, remember, remember, remember
Meet and we part
You make me feel good
Remember, remember, remember, remember
