

One Love

Noel Gourdin

Ever since that you've been gone, baby
I've been wondering why its taken me so long,
To make you my baby
Now I know we said weren't gonna rush,
I was the first to say it
But I been thinkin' bout your touch,
My mind keeps replayin' it

And everything that I stood for,
I take it all back for your love
I realize that I want you more,
Talkin' bout gettin' serious
So maybe its time we talked
So that we could just discuss
Where we gonna go from here,
Cause baby this here ain't enough

[Chorus]

Baby what about us [Repeat: x2]
We could be just one love [Repeat: x2]
Baby what about us
We could be, one love, one love
We're lucky to just have just one

And ever since you left that night,
I cant stop thinking about you
Seems like something ain't just right,
Spending days without you
Now I tried my best to hold my tongue
But its time to get indigent
Baby we should just be one,
So just hang on with it

And everything that I stood for,
I take it all back for your love
I realize that I want you more,
Talkin' bout gettin' serious
So maybe its time we talked
So that we could just discuss
Where we gonna go from here,

Cause this here ain't enough

[Chorus]

Baby I need you
Cause I adore you
You're the only one I'm kissing babe
You be the only one I'm missing baby
You hold my heart and soul
Makin' plans, settin' dates, kinda lettin' know
If I'm the one for you, my one and only love

[Chorus: x2]
