

Into Oblivion (Reunion)

Funeral for a Friend

The days I've felt alone
And the sea, it brings me back again
So that I can see my wife
And I can see my child Home, I'm home, it never changes
Same old faces, same old places I stand into oblivion
And found my home
I stand into oblivion, into oblivion Finding me the home
That you have never known
Find in us the faith
The faith to bring you home I stand into oblivion
And found my home
I stand into oblivion
And found my home I stand into oblivion
And found my own way back
To there, back to there Home, now that I'm coming home
Will you be the same as when I saw you last?
Tell me how much time has passed Home, now that I'm coming home
Will you be the same as when I saw you last?
Tell me how much time has passed Home, now that I'm coming home
Will you be the same as when I saw you last?
Tell me how much life has passed I stand into oblivion
And found my home
I stand into oblivion
And found my home I stand into oblivion
And found my home
I stand into oblivion
And found my own way back to there
