Cold

The East Pointers

You brought me spring
Sent me flowers
You kept my???? We sleep underneath the moon
You tela me why the brightess lights burn down so soon

Snow keeps falling
Buring the past
I'm out here digging
For what I can't get back
My hands are frozen
I'm feeling old
Snow keeps falling
And I have never ever felt so cold
I've never ever felt so cold

I feel my days growing shorter
And now that you're gone
The only thing swings coming
Winter's coming on
I thoght that summer would
Last forever
Now it's December

Snow keeps falling
Buring the past
I'm out here digging
For what I can't get back
My hands are frozen
I'm feeling old
Snow keeps falling
And I have never ever felt so cold
I've never ever felt so cold

Snow keeps falling
Buring the past
I'm out here digging
For what I can't get back

My hands are frozen
I'm feeling old
Snow keeps falling
Buring the past
I'm out here digging
For what I can't get back
My hands are frozen
I'm feeling old
Snow keeps falling
And I have never ever felt so cold
I've never ever felt so cold
