

# Cold

## The East Pointers

You brought me spring  
Sent me flowers  
You kept my???? We sleep underneath the moon  
You tela me why the brightess lights burn down so soon

Snow keeps falling  
Buring the past  
I'm out here digging  
For what I can't get back  
My hands are frozen  
I'm feeling old  
Snow keeps falling  
And I have never ever felt so cold  
I've never ever felt so cold

I feel my days growing shorter  
And now that you're gone  
The only thing swings coming  
Winter's coming on  
I thoght that summer would  
Last forever  
Now it's December

Snow keeps falling  
Buring the past  
I'm out here digging  
For what I can't get back  
My hands are frozen  
I'm feeling old  
Snow keeps falling  
And I have never ever felt so cold  
I've never ever felt so cold

Snow keeps falling  
Buring the past  
I'm out here digging  
For what I can't get back

My hands are frozen  
I'm feeling old  
Snow keeps falling  
Buring the past  
I'm out here digging  
For what I can't get back  
My hands are frozen  
I'm feeling old  
Snow keeps falling  
And I have never ever felt so cold  
I've never ever felt so cold
