Until The Record Breaks

Wave

I saw you standing by the stack of forty-fives
Looking at 'I want you back' by the Jackson Five
I really want to show you my affection
As we flip through my record collectionI want to hang out with you
Play it all day
Fall into the words they sing in 'Every Breath You Take'
I want to turn it up loud, get carried away
You and me in synchronicity
Until the record breaksI saw you crack a smile then turn the other way
When the speakers in the record shop were playing
Marvin Gaye
Let's get it on, let's get it onI want to hang out with you
Play it all day
Fall into the words they sing in 'Every Breath You Take'
I want to turn it up loud, get carried away
You and me in synchronicity
Until the record breaksI just want to come together
Dancing in the living room
On a sunday afternoonI want to hang out with you
Play it all day
Fall into the words they sing in 'Every Breath You Take'
I want to turn it up loud, get carried away
You and me in synchronicity
Until the record breaks
