

Invasion (Album Version)

Eisley

The colors were burning up his eyes
The bright lights of the city fade
Taking the chase to cover up your eyes
The white moon cast in space Ooh, something's not right
I can feel it inside
Something's not right You, you, you, you
You will take the breath from my throat
And you, you, you, you
You will take the challenge, we go about our war Come inside
You will be one of us painless, one of us brainless
Go to sleep, this won't hurt a bit
Shifting your shape to ourselves Ooh, something's not right
I can feel it inside
Something's not right You, you, you, you
You will take the breath from my throat
And you, you, you, you
You will take the challenge, we go about our war And they will try to make us forget ourselves
One by one, one by one
Call me crazy but they are after us
One by one, one by one They are after us, I swear
Do you believe it, I believe it too
