Take Me

Teedra Moses

(Chrous)
Take me
Back to that day when you made me fall
I want to go, I want to go
Make me feel
Like you did the very first time we ever touched
I want to go, let's just go(Verse 1)
[Teedra]
Winter's here
And I ain't about it
I just wanna lay with you
In the late nights getting warm
We find, less and less time to get together
But that there's whatever
See, tonight is for you and I
Yeah, we gotta take it back tonightI want to go, I want to go (Ooo)
Make me feel
Like you did the very first time we ever touched (So won't you take me)
I want to go, let's just go (Ooo)(Verse 2)
{Raphael}
The place love used to be
Is still a part of me
And I'm so fortunate lady
That you still need a piece of me
And I know that you're waiting
See I'm only downtown
You know I roll alone girl
I'm never with a crowd(Chrous)
Take me
Back to that day when you made me fall
I want to go, I want to go
Make me feel
Like you did the very first time we ever touched
I want to go, let's just go(B-sec)
[Teedra] & {Raphael}
And I know I can get crazy
Say things I do not mean
But in all of my frustration
I'm just tryna make you see

I'm still here for you (I'm still here for you)
My love won't let it die (I won't let it die)
I know it's been a while baby but
I need you to take me there tonight(Bridge)
[Teedra] & {Raphael}
Baby won't you take me tonight
{You know I roll alone girl}
{I'm never with a crowd}
Cause my heart [really needs you]
{Oh, take me baby}(Chrous)
Take me [Oh]
Back to that day when you made me fall
I want to fall, I want to fall {made me fall in love}
Make me feel {Oh}
Like you did the very first time we ever touched {Yeah}
I want to fall, let's just fall {Yeah, oo}(B-sec)
[Teedra] & {Raphael}
And I know I can get crazy
Say things I do not mean
But in all of my frustration
I'm just tryna make you see
I'm still here for you
My love won't let it die
I know it's been a while baby but
I need you to take me there tonight(Chrous)
Take me
Back to that day when you made me fall
I want to fall, I want to fall
Make me feel
Like you did the very first time we ever touched
I want to fall, let's just fall(Chrous)
Take me
Back to that day when you made me fall
I want to fall, I want to fall
Make me feel
Like you did the very first time we ever touched
I want to fall, let's just fall
