

We Love You (12" Version)

Orchestral Manoeuvres In the Dark

We've got to get a message to the stars above
Like radios in heaven hearing just enough
And every single tear drop along the way
We put them in our pockets for a rainy day But here we are in trouble like we always are
Just praying for a miracle and reaching up for stars We love you, would die for you
We need you everyday We got to get a message to the promised land
Like semaphores in motion so they'll understand
But every single vision that we saw today
We didn't quite believe in the usual way Yet here we are in heaven, who could want for more
We always end up getting what we're asking for We love you, would die for you
We need you everyday
We love you, wouldn't leave you
We miss you far away It's just another promise like we've heard before
We're never really knowing what we're fighting for We love you, would die for you
We need you, everyday
We love you, wouldn't leave you
We miss you far away We love you, would die for you
We miss you far away
We love you, would die for you
We need you, everyday
