

Green Glass

Jawbox

Day light
And where am I in your underground
Green glass
roads over that uneager, now shut out
reasons that make it uneasy (money)
rule out,
for your sweet little valentine
If it's a number you want
()
and if it's a number you want
why can't you take it? bright eyes
you lose your shiney
one more now green glass
refracts the glass and draws you down (chorus)
If it's a number... repeat
repeat why can't you take it?!!
