

# I'm Dead (Miles Away)

## Instruction

No way out  
I've accepted my own destiny  
In the end I've found  
Life is making your own history  
I live and always will be  
Miles you're miles away  
I want you to write me and tell me I'm dead  
'Cause this is just the same  
No way out  
I gave the very best of me  
And in the end I've found  
You lose when you give everything  
Well, I am and always will be  
Miles you're miles away  
I want you to write me and tell me I'm dead  
'Cause I'm miles you're miles away  
I want you to write me and tell me I'm dead  
I know it's just the  
Same frustration this limitation  
Well I live this every single day  
Now I found out that I'm just jealous  
And I waste my time  
I just waste my time  
I just waste my time again  
Miles you're miles away  
I want you to write me and tell me I'm dead  
You know cause miles you're miles away  
I want you to write me and tell me I'm dead  
I know it's just the same  
I know it's just the same  
I know it's just the same
