Petrol Fumes

Captain Everything!

I can't do this anymore
The same words now just make me bored
All I've lost
You could gain
If you only ever listened to a word I said
And you still say
"Is that all?"
You don't make life dull
Just predictable
So I'll lay this all out
On a long black strip
Get away from here
And all of your shitYou say you're tired
And I know the truth
It gives me all the reasons
You say you're tired
I'm tired too
I'm leaving here for
Booze and petrol fumesAs you lie there dreaming
Still thinking nothing's wrong
The next time you look
I'll be goneYou say you're tired
And I know the truth
It gives me all the reasons
You say you're tired
I'm tired too
I'm leaving here for
Booze and petrol fumes
You say you're tired
And I know the truth
It gives me all the reasons
You say you're tired
I'm tired too
I'm leaving here for
Booze and petrol fumes
