

Let's Go

Tonedeff

(V1)

Aiyyo, let's go, what's poppin, I don't know, I'm out the door

Just call me. I got my phone

I'm tryin to get up into whatever possible

Floss on some hoes that's down to go Rock & Roll

Lock & load, when the boss is on the road

I got my whole QN5 squad in tow

Broads, we're out to scope

The harder the cock is swole, the farther the tonsils go down her throat

Stocked with a monster flow & the hottest shows that your spots have known

With a plot to go cross the globe

Who wanna toss some dough?

Cause the odds are low, that you'll watch me strolling up out the zone all alone

We ain't caught up in the cost of clothes, we just holla at those

Shawty's with bodies that got a shot at the throne

While some niggas constantly choke

People if you don't wanna be home, I advise that you follow with Tone!

Let's go(Bridge A)

We gotta make some moves

Get up and lace ya shoes

We gonna break the rules down

Let's goThis is the place to jump

Move with the bass that pumps

We fin to raise it up now!

Let's go(V2)

Yup he's at it again, the cat with the pen and the Latin descent

An immaculate grin

And a ravenous flow you can't control or paddle against

After your chick she said she was a fan of my shit, I've been tappin' it since

Oh. yeah, can spit.that's what I meant

Back to the script that I planned, man - just got distracted a bit

And I can't envision which talent to ditch

It's like, imagine a chick having to pick between her snatch, face, ass and her tits

Now I ain't tragically hip, and I'm proud of it

Son, I'm a natural at this, I don't reenact for an audience

Or party with them wack hoes hollerin

Girl, if that's your milkshake, I'm lactose intolerant

(Ahhh!) Don't be getting defensive

Just call me the gamecock, cause when you beat it on hard you get the special ending

And there's no quarter required for that
Just hit start! Now, Ladies and gentleman tighten your caps

Let's go(Chorus)

Ain't no time for y'all to halt or stop or stall
We good as long as y'all bouncing off them walls
And we ain't gonna stop, so we don't need no brakes
So, if you want it, get on it, we roll till the wheels come off

Let's go, let's go, let's go(Bridge B)

Enough of the day to day
Cause you deserve a break

Put all the work away
Y'all let's go! Now is time to roll

If you been riding slow
Get on the grind and go
Y'all let's go!
