

Win

Deacon Blue

Can't we just go out?
See a film do something with the night?
Lark about
Morning comes to early every day
The good bits always seem to slip away Even though you think it's the last thing
That's ever gonna happen
There's one thing you should know It's OK to want it
Believe it, maybe now we need it
We can win
It's OK to dream it
Feel it, maybe even steal it
We can win
Can't we go the distance?
We can win
Riding on the bus
Side by side as all the lights go up
It's taking us
Out of the darkness girl you wont believe
Just look back this one last time with me Even though you think we're running
There's no way we're returning
So you should know It's OK to want it
Believe it, maybe now we need it
We can win
It's OK to dream it
Feel it, maybe even steal it
We can win
When tomorrow comes, we're out of here
Pack some things, gonna be our year
Don't tell a soul I told you so
But I bet on us from the first time I saw you...
I knew we were going to
Win It's OK to want it
Believe it, maybe now we need it
We can win
It's OK to dream it
Feel it, maybe even steal it
We can win Can't we go the distance?
Forget the worlds against us?
We can win

We can win
