

Get Goin'

G. Love

Well Im sitting on the front porch
Running down the steep steps
Here comes the boy, carrying the paper
Catch it in mid- air
Run back up the stairs
Open up to the used auto section
Gotta get a used car, one thats gonna get me far
Not too fast, and that car, that car
Its gonna have to last
I gotta get going
I gotta get going
I gotta ease on, get on down the road
Get going
Well, Ill meet you at the break of dawn
You and me can get along
Got to get away, look for a better day
Bright lights and big cities stay back
Little did I need em
Cause now all I see is mountains and trees
Birds flying, rising up ahead of us
And clean fresh air, clean fresh air is running right through
us
I gotta get going
I gotta get going
Well I gotta ease on, get on down the road
Get going
Now you know were all alone dont think were gonna go home
now
Cause were happy now
And were moving right along
Grooving all day long
Never had so much freedom
Not a care in the world and me and you are growing stronger
together
Now - cut back baby now
Do you think we can last forever
Now - cut back baby
Do you think we can last forever.
I gotta get going

I gotta get going
I gotta ease on, get on down the road
Get going
I gotta get going
I gotta get going
I gotta ease on, get on down the road
Get going
