A Man Called Sun

The Verve

Everybody seems to know when he's around
He lifts me up and fades without a sound
Mr. Sun, won't you shine?
Mr. Sun, won't you shine?Why he's here I will never know
He makes you know you feel like somewhere to go
Mr. Sun, won't you shine?
Mr. Sun, just you shineWalking with a man called Sun
I think my journey's just begun
Do you think he'll mind?He lifts you up he shines and then he's gone
But you know you need him more when he's gone
Mr. Sun, just shine
Mr. Sun, just shineWalking with a man called Sun
I think my journey's just begun
Do you think he'll mind?Shine, shine
Shine, shine
Let it shine
