

# A Man Called Sun

## The Verve

Everybody seems to know when he's around  
He lifts me up and fades without a sound  
Mr. Sun, won't you shine?  
Mr. Sun, won't you shine? Why he's here I will never know  
He makes you know you feel like somewhere to go  
Mr. Sun, won't you shine?  
Mr. Sun, just you shine Walking with a man called Sun  
I think my journey's just begun  
Do you think he'll mind? He lifts you up he shines and then he's gone  
But you know you need him more when he's gone  
Mr. Sun, just shine  
Mr. Sun, just shine Walking with a man called Sun  
I think my journey's just begun  
Do you think he'll mind? Shine, shine  
Shine, shine  
Let it shine
