

# Ship of Fools

## Vicious Rumors

[Lyrics & Music: Vicious Rumors]The key to love is understanding

Will it come down from above or will it fade away yeah

Ohh.. we can make it together

Take it in stride loving each other

Ship of fools take us away from here

What lies ahead is becoming all too clear

Listen and learn-we can start today

Oh can I trust you to trust me or will you throw my heart away

Ohh... we can make it together

Just one more try oh... oh... loving forever

Ship of fools-take us away from here

What lies ahead is becoming all too clear

[Lead]

Ship of fools take us away from here

What lies ahead is becoming all too clear

Ship of fools-oh take us away from here

What lies ahead is becoming all too clear
