

# Carve

## nests

Caught in the middle  
It's all that I've got  
I'm done pouring out all of my thoughts  
For you all to judge  
Tear into space with a new frame of mind  
Could you carry me over the line?  
As your number one Where is the line?  
Carve your name into me!  
'Cause I'll never remember tonight  
Carve your name 'til I bleed!  
And I won't even put up a fight  
I know you want what's best for me  
Don't let me up 'cause I'll run Here in the panic that I call my life  
I'm still trying to make it all right  
While the stars, they fall  
Tear into space with a new set of lies  
Could you carry me over the line?  
As your number one Where is the line?  
Carve your name into me!  
'Cause I'll never remember tonight  
Carve your name 'til I bleed!  
And I won't even put up a fight  
I know you want what's best for me  
Don't let me up 'cause I'll run Carve your name into me!  
'Cause I'll never remember tonight  
Carve your name 'til I bleed!  
And I won't even put up a fight  
I know you want what's best for me  
Don't let me up 'cause I'll run I'll run  
I'LL RUN!  
I'll run...
